1.0 Spectacle Lens Ordering Integration with VisionWeb

Crystal PM has integrated with VisionWeb's spectacle lens ordering service to allow you to order Rx lenses from hundreds of suppliers, without having to re-key data into another system. VisionWeb's spectacle lens ordering service is free and registration is simple. Visit www.visionweb.com to register your practice, or call (800) 874-6601.

Once you have registered your practice, you will receive a username and password that you will need to input into the VisionWeb page from the Master Admin. This will allow automated login for lab orders and reports.

After you enter your username and password, click "Verify Login". If successfully logged into VisionWeb, "Assign VisionWeb to Suppliers to Lab Profiles" will appear. Click on that link to create a new lab profile for the spectacle lens laboratory that you wish to order to, or assign spectacle lens orders to an existing spectacle lens laboratory that you have previously set-up.

To submit a spectacle lens order, view 1.1 Frame Orders with VisionWeb.

1.1 Spectacle Lens Orders with VisionWeb

In order to access the spectacle lens ordering integration, you must be connected to the Internet, and have configured your VisionWeb username and password through the Master Admin page.

From the "Frame Page" select a spectacle lens laboratory from the Lab/Vendor tab that you have assigned to VisionWeb. Enter the patient Rx info, frame information if applicable, and lens information. When you are ready to send the spectacle lens order to VisionWeb, click the "Configure Lens on VisionWeb" button.
