Coding Consulting Service

Ensure Proper Insurance Coding & Billing

Eyecare providers leave thousands of dollars in claim reimbursements on the table every year due to flawed coding and billing procedures. VisionWeb's coding consulting service gives you the tools you need to capture every dollar you earn.

A VisionWeb coding consultant will work with your practice to identify areas of opportunity to maximize claim reimbursement rates, allowing you to reduce the revenue depleting billing inefficiencies and inaccuracies that result from incorrect coding of insurance claims.

Suggested improvements may include, but are not limited to the following:

- Proper coding and compliance (emphasis on Medicare)
- Proper patient insurance verification and paperwork
- Review of fee slip
- Accounts receivable management
- Claims appeal process
- Audits of internal and external billing departments
- Claim processing through practice management systems

Maximize Claim Reimbursement with Improved Processes

Getting Started

For more information on improving your insurance coding and billing processes with VisionWeb, visit **www.visionweb.com** in the "Eyecare Providers" section, or contact a VisionWeb Coding Consultant at **(866) 630-2036.**
